I'm a woman and can tell this book will work for every single man if follow all described steps in this book toward women's heart. Easy to read, contextual! No milk and water just finest instruction to be a real gentleman in woman's eyes. Use it and get succeed!

So attractive book cover and also text inside. I bought this book because it is written by women for men - view from the other side, and author promises that after reading the book I can win a women that I really want for only 7 days, so challenge accepted! Every good book have a phrase, that can change our life. For someone it maybe "women are not aliens". It mean that we, men, don't need to be afraid of them, but women are not so easy to understand, that's why I think men buy books like this. Many problems, also problems with girls, resolve after understanding why so, so the key in understanding, and this book gives it!

This is an enjoyable book to read. Very interesting and helpful. This book has completely change the way I see my self and my mindset. Everything is possible in life, but you must take action and make the necessary changes in your life to improve every single day, this journey is hard, you will face rejection, you will be confused, you will fail miserable, but if you want it so bad, you will find the way to make it happen. This book is worth reading.

I've gone through a lot of the "expert dating products" and the funny thing is that they are just expensive elaborations of the principles laid out in this book. This book gives you what you need without leaving you in a state of "paralysis from analysis"

Quick read! The Author breaks down the steps into getting and keeping that special woman. The author gives dating advice as well as how to get yourself ready when the right woman comes around. There is some really good advice throughout the book.

Great book! I enjoyed reading and I've already tried two steps with girls and it really works. I'll try next steps and I hope they will be effective as well. I would recommend this book.

I believe there must be more such books. Others write that girls like rich guys, so what if left for those who do not have a million dollars? I found the answer in this book. Thank you.

What I like about this book, is that every section starts with a quotation. It means that women like educated men and that the way to a woman's heart is through her brain
