Customer Reviews

And I am a beginner. A 65 year old beginner. I often find beginner's books on things tend to talk down to me, but this one treats the student with respect. I am very happy with this book, working my way through it, and happy with my progress as guided by the book. Five stars without a doubt.

I have books for several instruments that have been published by Mel Bay. I like the work done in them, and this book is no exception. The material is presented well and is easily understandable.

I have other basic harp books that are more up to date and helpful.

My wife is slowly learning how to play thanks to this book.
