It is a good overview of Kim Yu-Na's career and life. It is just disappointing that it is a kids book and that there is no adult biography of Kim Yu-Na

For those who are fans of Kim Yuna, this a book that doesn't add much knowledge, but it's a very pleasing book to read. It shows us the struggles and will of Yuna to keep on skating and to win the olympic gold. For the youngsters it's a good book, who shows a role model.

I loved it!

it was really informal. good for reports and very easy to read.ni would recomend this book to any one. :)

I LOVE THIS BOOK! I heard that it is impossible to get in United States but you have one! so I bought it! I appreciate it!

I liked it because it was fascinating to see such accomplishments. I disliked how it was presented. It was sorta dry just telling of these events not actually showing more details.

It is the best book I ever read . The book is specific. It tell me every thing. My favorite book.

This book inspired me to work harder for the things I do. It made me become a more confident skater.
