Customer Reviews

Nothing listed here is a design. These are ideas that all need considerably more research before implementing. Somehow, "replace the roof" was considered a budget idea. I can assure you, it's not. These ideas include, change for doorknobs, replace curtains, add a tile backsplash, remove the carpet, paint, etc. Nothing out of the box listed here. And most of these suggestions need a lot more research and information before someone just implements them in their house.

Appreciated having all these details in one place so I can ponder what projects to tackle. Very helpful and easy to understand.

Very helpful

This are very basic and you will find them online from multiple sources. Thank goodness I had prime and borrowed it, it would have been a waste of money. Wouldn't recommend to anyone with common sense and an internet connection.

Some new some old info. If I did all the things listed or half, I wouldn't want to move as my home would feel like a new home.

I infiltrated earth society in preparation for the invasion of earth by my fellow Martians. It was vitally important that I blend in with earth culture in order to remain undetected. This book helped me select a local earth house that did not stand out and blended in with other earth abodes. Thanks earthlings for writing a book that will contribute to your own demise, hah hah hah!
