## Customer Reviews

"This is an outstanding book for students embarking on the process of writing history. It is clear. It is comprehensive. It is thoughtful. It does the kinds of things I like to do in class. And it does them well." --Allan Winkler, Miami University of Ohio  
"If there were one book that an undergraduate should have at her side when approaching a major research project, this would be the one." --David Van Heemst, Olivet Nazarene University  
"Its greatest advantage is its organization. I really like the way in which it presents the steps of the research process. It is not only well organized but also very thorough when explaining each and every one of these steps. When it comes to this combination of organization and comprehensiveness, it is, in my opinion, the best text currently in the market."  
--Esperanza Brizuela-Garcia, Montclair State University  
"This is a good guide! Pictures and lists clarify steps and make the process less daunting for students. It can be useful for students just

beginning to write research papers and for graduate students who need the breakdown of the process to help them better organize their lengthy thesis projects." --Annamarie Vallis, California State University, Fresno

William Kelleher Storey is Professor of History at Millsaps College. Formerly Preceptor in Expository Writing at Harvard University, he is the author of *The First World War: A Concise Global History*, Second Edition (2014), *Guns, Race, and Power in Colonial South Africa* (2008), and *Science and Power in Colonial Mauritius* (1997).

Book is a great resource for anyone wanting to master the art of the dreaded research paper.

Whish I purchased this book my first day of college. Great tips to keep you on the lookout and perfect your writing skills.

Storey, developed this text for a writing program at Harvard. A historian by training, Storey does an excellent job of describing basic and advanced research and writing techniques. His text is succinct and lively, filled with well chosen examples. If you have ever wondered about the difference between a primary and secondary source or how to deal with contradictory evidence, this is the book for you. I assign it in my writing courses.

Good book.

Great
