Women's Anatomy Of Arousal: Secret Maps To Buried Pleasure

Synopsis

Women have a largely unknown network of structures responsible for arousal and orgasm that their owners and even most medical professionals don't know about. We're not just talking about Ye Olde G-Spot here. Women have an entire erectile network that, if properly stimulated, can elevate their erotic experience from "Oh!" to "Oh! Oh! Oh!" Join celebrated sexuality teacher Sheri Winston as she integrates ancient wisdom, lost knowledge, and modern sexuality information in a sexy, fun, empowering guidebook that illuminates every woman's secret paths to fabulous, orgasmically abundant sex. Whether you're a woman or a man who loves women, this book is for you! There's great information here, but that's not why Winston wrote the book. She wrote it to transform people's lives and support them to reclaim their erotic birthright. And what she shares works! When people apply the information and techniques she provides, the result is often a whole new level of sexual pleasure. Contains mature themes.

Customer Reviews

“The most comprehensive, user-friendly, practical and uplifting book on women's sexuality I've ever read!” ---Dr. Christiane Northrup, author of *Women's Bodies, Women's Wisdom*

Sheri Winston, CNM, RN, BSN, LMT, is a celebrated wholistic sexuality teacher, award-winning author, medical professional, and founder of the Center for the Intimate Arts. *Women's Anatomy of Arousal* won the 2010 Book of the Year Award from the American Association of Sex Educators, Counselors, and Therapists. Coming soon...

You know how some people keep a Bible/Quran/Torah next to their beds to read here and there to make them feel safe, nourished, and alright with the world? That is what I do with Women's Anatomy of Arousal. :-)

An excellent simplification for women to learn about themselves. The connections between anatomy, energy, and sex are beautifully laid out for anyone who truly wants to own their sexuality and orgasm! Highly recommend for couples or singles, whoever is a woman and/or loves women!

Very informative. Read this - your wife will appreciate your new found insights.

Men all over the world need to read this book...you would get more sex from women!

When I decided to buy this book I was unsuspecting of the treasure trove I was about to discover. The material contained, as well as the manner in which it's presented makes it a masterpiece. When it comes to the subject (sex), there is a superabundance of junk out there. This book changes all that. It puts sex where it needs to be. The truth is that sex is not sinful but divine. We are all aware of the pleasures of sex, however, not so many are ready to admit of the pain and suffering that negative attitudes toward sex, including repression and ignorance have caused. The author helps changing all that by using a two-pronged approach, finding our way through pleasure to an encounter with our Self, and leaving our misconceptions, including repression, shame and guilt behind. The material in this book, if put in practice, will definitely make you not only a better lover but a more authentic and real human being. By the way, if you happen to be a man, as I am, don't let the title fool you. Get this book and put it into practice...you won't regret it!

Unbelievably detailed book on how women think and feel about their sex. Everything is covered from sexual philosophy and hangups on every culture, to the psychology of sex, to incredibly detailed medical anatomy lessons. Buy it for your girlfriend and read it first.

Wonderful book!! It's a quick read, and she created the book to be very "user friendly". :)

Recommended. It's not incredibly in-depth in some areas, but it's an overall great start for many women.

a very arousing read..full of interesting and a new way of presenting the whoopee spots of your lady....especially the clitoris and its extended super sensitive anatomy that extends deep into the vaginal and vulvar tissues....powerful perspective on the female anatomy of pleasure...
