Customer Reviews

Our family is a HUGE fan of DK Eyewitness books so after we visited the Mayan ruins in the Yucatan over Thanksgiving, I purchased this book for my sons as a Christmas present and I think I am enjoying it as much as my 9 and 12 year old sons. The pictures are absolutely beautiful and the book is full of details about the Aztecs, Incas and Mayans. I have a feeling this book will also be very helpful when and if the boys ever do a school report or project on any of these peoples. I highly recommend!

I purchased this book for my boss. I skimmed through the book and it looks really amazing. There are a huge number of color photos and it has a CD of clip art. The book has different topics that include sports, clothes, pottery, precious metals, food etc. and each of these subjects include drawings or photos of what is being described. It is a really nice book for anyone who likes learning

in a visual manner. I would recommend this book.

The illustrations and photos in this book help you "see" how these ancient people lived. Though this book is for children, I purchased it for myself. It answered some questions I had and is a great resource.

This is beginning to arouse curiosity about these civilizations with the eight year old, such as when and where and what people were like. I have always read about the Maya more than the others, so this is a fun read for me.

Perfect!

There are a lot of pictures of actual artifacts, weapons, etc. These books are very visual and that brings the subject to life.

good book- covers a lot- kids like it- no objections- good price for real education. It seems it will last a long time.

this is a really fun book to read. lots of pictures. and the CD of clip arts were really useful.
