My 9-year old son and his friends are all about drawing their own comics. My son is just starting to learn. We got him several comic drawing books that come highly recommended, but this one won the spotlight! I think many comic drawing books can be intimidating for a kid, but this one gives the basics, using shapes they know, to draw all their super heroes (or ones they can create on their own!). This book is a great place to start for your kids!

My boys are huge super hero fans! When they wanted to draw their own comic book I didn't know where to start so I bought this book. The instructions are step by step and very easy, even my 4 year old can follow along fairly well with minimal help. Great for younger kids who are just learning how to draw, would recommend to friends and family.

My 5 year old boy loves super heroes & drawing.... and this book!!! He can do them all probably 95%. Majority of the time he's completely content doing what he's able, but sometimes he'll ask me to help with the small details in the face or somewhere. There was one super hero that I glued the pages together & permanent marker over his face on the back cover-- the ghost rider.... I felt like he looks way to scary for a 5 year old. My son didn't care that I did that & loves the book. We're very happy with it!!!

I have a 6 year old son who loves two things right now Superheroes and Drawing. This book is perfect for his age level! He loves it. The book breaks it down into simple shapes and steps for the child. We also bought the How to Draw Comic Book Super Villains and How to Draw More Comic Book Super Heroes from Steve Hiker, and I know I don't know everything about comics, but I am pretty sure these books cover how to draw almost all the characters he talks about. I definitely would recommend them.

My 9 year old son totally LOVED this book. He really enjoyed making the drawings. He liked it so much, he carried this book around. Most superhero drawing books are way too complex for his skill level. This was attainable and fun. I highly recommend this. I hope Steve Hilker will continue to make more drawing books like this...maybe Minecraft!

My six year grandson sat right down and drew the figures from the book. He really enjoyed being able to follow the simple diagrams to create Super Heroes. I grandma, sat with him and also drew some figures, and his were just as good as mine. Using a few simple shapes, it is possible to easily draw many Super Heroes regardless of your age.

I Love this product!!

I had tried many methods to teach my 5 year old to draw superheroes, but this was the best. It really helped him follow through and focus in a simple way. It's genius!
