Linda Kopp is an editor at Lark and the author of several books, including The Joy of Sox 9781600592850, Cool Crocheted Hats 9781600594076 and Plush-O-Rama 9781579908782.

Let me just start by saying this; if you are REALLY on a budget, make yourself a favor, save your money and don't buy this book. All the things were so outdated, it even tells you how to do a cake, but you pretty much have to have all the materials as a professional baker to make them. I think you would even spend more time buying all the equipment than just buying a cake. All the things in there, are so outdated that maybe my mother should have used it for her budget wedding. I suggest you buy "The DIY Bride" there are two great books with more recent things that will really help any bride.

Love this book! I have so many book marks and mani Post-it's for my special day. A must have book for your specialDay.

I bought this book but I won't be using any of the ideas that they presented. A lot of the ideas look cheap (not in a good way), and not very practical to make. I wish I hadn't spent the money on this book. Definitely not worth it.

I love this book! It has so many ideas for wedding decorations that I don't know how I'm going to choose which ones to make. It contains easy-to-follow instructions for each project and lots of beautiful designs. If you like to make things and want to save money on your wedding, buy this book.

Wasn't helpful to me,very costly things. If your looking for cakes this is the one for you. I was looking for more favors and decorations.

Nothing new in here

With pinterest and google you can find more than half of the projects listed in this book. Don't waste your money on this book, save it for your wedding!

Love it
