Customer Reviews

The book is great! However in the Kindle edition, when a two-page spread ran across the pages vertically rather than horizontally, it wasn't possible to get it to hold a vertical position when we turned the tablet to read it. Don't know how to correct that problem with an ebook, but it was frustrating to my granddaughter.

My grandson is obsessed with trucks and airplanes. After reading Patricia Hubbell's "Trucks" I wanted to see how she handled "Airplanes" Both were done well with other things to look for in the artwork.

Purchased this for my almost two year old for a plane trip! Really great, fun rhyming, beautiful

illustration, perfect for pointing to pictures and teaching words. Can go fast or slow through the book. Very fun.

My 2 year old is really into planes. He likes this book a lot. I just need to make sure he doesn't rip it (more) because they are pretty thin pages just like a normal book. I wouldn't recommend for a young child unless you are holding and reading. While the pictures are nice, a young child will tear it up quick.

This is one of those children's books that I will happily read over and over to my children, because I love the simple, but creative rhymes. The pictures are wonderful and full of many funny little jokes that parents can enjoy (and explain to their children if they'd like because they're kid-appropriate). Maybe what I like most about it is the simple fact that it is an artistic and clever book about vehicles. I have 3 boys and get tired of reading about planes and trucks and all things with wheels. There are more books to this series that are also worth checking out, as they are equally enjoyable.

Great book to read to little to familiarize them with all types of planes. Fun pictures. See how many planes you can find!

Great book for my grandsons! I bought this one because the Trains book was so good and this one didn't disappoint either! The "antique" type illustrations are adorable as well! It's definitely one of their favorites (ages 2, 4 and 6).

We LOVE THIS BOOK!!!!!! So Cute, I read it at least five times a day to my son! He is two and requests it over and over! This entire series is cleverly written
