Passive Income: Mastering The Internet Economy: Online Secrets To Make More Money Easily

Synopsis

Entrepreneurs are not all driven by the desire for wealth. Many of us are motivated in the initial stages by more than a desire for wealth and affluence, also a desire for full control of our own life and destiny. The ultimate aim of online entrepreneurs is to live the four-hour work week. A life where you don't need more than four hours each week to maintain the lifestyle you choose. Everyone wants this life but you are one of the few who will actually take action to make it happen. This book is for those who are no longer satisfied with the income of their jobs. There are many books on passive income, often written by people who have no idea what they are talking about, as they have never run an online business before and are simply re-hashing outdated information. In this book I will share many of the best online opportunities I have come across that have proven to be effective for me personally in growing my income substantially in just a few short years. This book contains the key information you need to make any online business work, and you will not find this information in any similar book. Much of the information in other books is out of date and does not work anymore.

Customer Reviews

This book teaches the reader sure ways on how to generate passive income. That is by investing in online business. As we all know, there are lots of opportunities online. Very impressive book about passive income.

Looking for instructions on how to create passive income on the internet and I think this was a good start. It was somewhat motivating as well.

Informative for anyone who is considering a passive income.

It's good comprehensive introduction to making passive income.

A long winded treatise that skims to the surface of what passive income is. Only in the final two or three pages is there any reference to getting started. This effort is not poorly written, there there are some careless errors, but it is only really useful to the most novice amongst us who might be asking "What is this passive income of which you speak?" As far as any secrets or how-to tips on "mastering the online economy" looks like the writer left those bits out.

I was looking for more sources of creating passive income. I really needed them and i still do. Than i found this amazing guide of creating a wealthy life. I started to earn money from the first days and i found myself 3K \$ richer at the end of the first month ...It was amazing, but it was the first month and these great steps of creating additional income brought me much more every month. And it was so easy, i just read this book and repeat it any time to master these practices of working less and less and earning much more. Actually i work only 40minutes per day or less and i am very satisfied withy my ear nings and my life. Finally i have the life i wanted to create. Highly recommend to anyone . Be the master of your life. Be your Boss.

General and basic info that most should already know. Not much help if any at all. Save your money.

I never revived my item . I would say zero because I never revived it
