Customer Reviews

I highly recommend this book to anyone with a curious mind! I have several other books by this author, and can't wait for more.

The author is good at presenting stories that are out of the ordinary. They seem to have a great deal of unanswered questions that come up.

Interesting subject, but a really tough read. Rambling and repetitive at times, horrible punctuation and spelling at other times.

Great read, very easy to keep track of what is going on. I really enjoyed it. It was enough to make my skin crawl more than once.

This one is not nearly as clear and concise as his other books. I felt as if it was all over the place.

In my younger days I was a fearless backpacker, camper, hiker...totally oblivious to the prospect of being harmed out in the wilderness unless I encountered a grizzly bear. After reading Mr. Young's book, I would say more dangers could be lurking in the woods! This book is so fascinating because of the documenting done on these true cases. Even the most skeptical person would have to admit that the events Mr. Young presents in this book are a mystery. They defy reason yet they happened. I would recommend this book to anyone who wishes to expand their knowledge of what might be outside your door!

I absolutely love Steph Young's books. They are very interesting and tell tales that have me thinking about them weeks after finishing the book. I can't wait for her next one. I'll be buying it on day one for sure.

I have several books by this author and I've never been disappointed yet. Always well written and

interesting. Original stories not found in other books of this type!
