This is a great chapter book! I really love all of the Magic treehouse books and so does my son! He is in fourth grade and we are using this book for his required reading while studying the American Revolution. I really love all of the Magic treehouse books and so does my son! He is in fourth grade and we are using this book for his required reading while studying the American Revolution. This book has nine chapters, each chapter is between like 8 to 12 pages but there is also pictures on most of the pages so it's not 12 pages of consistent reading. This book is called the facts tracker so there's lots of things that they show in pictures like the clothes that they wore for pictures of actual I am like pots or toilets or things that were used during that time as well as illustrated pictures. The book goes over a variety of topics including the colonies what life was like in the colonies down to what they ate what they wore, it talks about how trouble started and the war the weapons they used in the war how the soldiers dressed how the Declaration of Independence came along Valley Forge the end of the war and at the back at the very end of the book there's a timeline. With all the little extras thrown in my fifth son found this really interesting and it wasn't a chore to read it it was actually fun! Highly highly recommend this book!

Informative and interesting. Gets kids attention with a great story and follows up with informative research guide. These books are a great way to get kids hooked on non-fiction in an exciting way.

I think it was a good book and I liked how you gave some web sites nice job Mary Pop Osborn

Helped with teaching a curriculum unit on the American Revolution. Students enjoy reading these books by this author.

arrived as expected. will read the book when I have completed buying the series

This was a great way for my fourth graders to learn about the American Revolution. The reading level was a little lower, but this allowed my lower readers to stay engaged and allowed for research extensions.

Great for my 8th grade students.

This is a good intro book for kids, to learn about living in colonial times. My son has read it twice so far. He actually enjoys this fact tracker more than the book in the series.
