It was a bit more beat up, but it's been ok.

A must have for anyone going into teaching.

Cool little book. Needed it for a class this semester and will keep it for future reference.

Great!

This book has a lot of great information.

As advertised, quick delivery

This was a required textbook for my class last quarter. It was easy to read and very easy to come to class with discussion points. My only complaint is it was repetitive. As a textbook it was fine but not worth reading for information.

Interesting book, but Apex Media is a joke to contact. Get it together, guys.
