Queer Rock Love: A Family Memoir

Synopsis

What happens when an introverted feminist academic tosses off her big black nerd glasses and succumbs to a brutal crush on a hard-rockinâ™ Texas boygirl? Paige Schiltâ™s journey introduces her to Southern belles, singing sperm donors, gay evangelicals, and tattooed sub-cultural kinfolk. A unique tale of family, illness, and resilience, *Queer Rock Love* reminds us that our trials and tribulations can sometimes become powerful sources of community and connection.

Customer Reviews

The challenges of non conformity. A love letter. A personal account of making choices. All these in this wonderfully written memoir. Just as easy for a conventional heterosexual to identify with the bittersweetness of creating a life together. After all, most relations are more the same than they are different. Captivating read. I went straight through over the weekend. Waiting for Paige's next project.

This book was amazing it pulls you in and grabs ahold of you. Reading about the experience with Hep C really hit home for me after watching a loved one go through Interferon shots. Brian is just an amazing and selfless man to do what he did. The love that is shown in this book is undeniable.

I grew up with Katy. It was cool to read a book about someone you know. Paige Schilt has an amazing way of drawing you in and making you feel like you are there. This book is a very well written and you won't want to put it down! Loved it!

although this book is not about me, i saw my life around every corner. what a gift -- to be reminded that we all experience this thing called life. and that our similarities outweigh our differences. thank you.

Couldn't put it down! I am a lover of memoirs and this one is the best I've read in many moons. I love a story that makes you feel in unexpected ways, helps you see the complexity of life and it's many shades of grey.

Paige Schilt's memoir is a compulsively readable, always insightful and utterly sincere investigation of performance, identity and the bonds that constitute a family.

Best book that i have read in a long time! It was funny, endearing and brave! A great look into the life of a queer, modern family!!

This is a wonderful memoir about a lesbian/gender queer family & their struggles with health issues, martial issues, etc.
