Aristotle: Introductory Readings (Hackett Classics)

Synopsis

Drawn from the translations and editorial aids of Irwin and Fine's *Aristotle, Selections* (Hackett Publishing Co., 1995), this anthology will be most useful to instructors who must try to do justice to Aristotle in a semester-long ancient-philosophy survey, but it will also be appropriate for a variety of introductory-level courses. *Introductory Readings* provides accurate, readable, and integrated translations that allow the reader to follow Aristotle's use of crucial technical terms and to grasp the details of his argument. Included are adaptations of the glossary and notes that helped make its parent volume a singularly useful aid to the study of Aristotle.

Book Information

Series: Hackett Classics

Paperback: 380 pages

Publisher: Hackett Pub Co; 5.2.1996 edition (September 15, 1996)

Language: English

ISBN-10: 0872203395

ISBN-13: 978-0872203396

Customer Reviews

Text: English (translation) Original Language: Greek --This text refers to the Kindle Edition edition.

Terence Irwin is Professor of Ancient Philosophy in the University of Oxford, and Fellow of Keble College. Gail Fine is Professor of Philosophy, Cornell University.

I needed the book *Introductory Readings* for my philosophy class. The book helps understand the ideals and arguments of Aristotle. It was written especially for students. *Introductory Readings* was originally in Greek, so the translation done by Hackett Publishing is by far one of the most understandable, since it is hard to translate Greek to English. I would highly recommend picking this

up if you want to understand philosophy a bit more, since philosophy is confusing if you easily get lost with philosophical ideas that can just throw you off. However, if you like reading the works of famous philosophers you should not pass this book up.

A great introductory resource for students learning philosophy.

I used this book for an intro to philosophy course, but the readings were so good that I had to hold onto it for my own personal library.

I am currently reading this book for a course. It is easy to read and understand. I also like it because I purchased it on my kindle fire. No waiting. I received the book as soon as I paid for it.

I love Aristotle, and this is a great one to own. Buy it and keep it and reference it forever.

This book alone can get you through any Aristotle courses in college.

Very happy!

Excellent service
