Customer Reviews

very good series, like it a lot, just wish the writer could write faster to put out some more, but I know he has other works in progress.

series is getting rather silly

I have enjoyed all of this series so far. I will continue to purchase this series. The author has an interesting style of writing than I like

While Mr. Paul has wonderful stories that are funny and quirky (and at times gruesome), he really needs to fix the egregious errors strewn throughout the Athena Lee books. In addition to the many grammatical and punctuation errors too many sentences are trying to say two sentences at once. For instance, one line says: "I will find you the materials for you". Either say "I will find you the materials" or say "I will find the materials for you". Pick a sentence!SPOILER

ALERT*****Question: how could Athena's dad have gone to Mars 30 years ago and met her mom when Athena was on Firefly station for 15 years? That would have made her at a minimum of 13 years old when she was stranded there (assuming that Hannibal was 2 years older and Minerva a year older than Athena) that's the only way her parents could have met 30 years ago if mom had had one kid a year as soon as she met Alexander. So then you're saying she went to school and became an officer by the time she was 13 so she'd be 28, Minerva would be 29 and Hannibal would be 30. And then, and then later in the book the ambassador calls her a "thirty something chickie". How? How? Poor math there Mr. Paul

This was as good a read as I've had in years. Good storyline, well written, and very hard to put down. The author is very refreshing in his approach and provokes thought in the process. looking forward to reading the next segment. A breath of fresh air!

Storys are ok, but the spelling and grammar mistakes are inexcusable. The author should fire his editor, those mistakes are distracting. If I wasn't reading these storys through the Prime read for free, I wouldn't have read past the first book.

The storyline was quite good. Character development was a bit short of the mark. The editing was horrible. I suggest that someone actually read the product before it is published... Also, the author should not eat while dictating, some of the faux pas appear to be caused by mumbling around crackers...

Good easy reads; spelling and grammar sometimes not the best.
