I was hoping this would measure up to the wonderful F.O.G 3 that came with my TESOL course a few years ago. I use the FOG 3 often for a variety of exercises with students and it is really effective. This #5 was priced less than others so I took advantage of this great price when I decided to buy it. Although it has a similar format it somehow the exercises are not as user friendly, encouraging or fun like the FOG 3. I will never use it so deposited it in the school's resource room for others.

amazingly cheap, very good

I bought this book and I received exactly what was written in the description, barely used, came with the cd and still smelled new. Related with the book, it is supposed to be an advanced grammar book and is exactly what it is, I had studied from other books and may be because they are not that advanced, the explanations are more clear than in this one. Greetings.

I did not like it

OK.

Compared with other books I bought, it is not good. I regret to buy Focus on Grammar Textbook and workbook

Got this one with really affordable price but good condition

A new one. Much cheaper. Shipping is so fast.
