Core Curriculum For Pediatric Critical Care Nursing, 1e

Synopsis

The full scope of pediatric critical care nursing practice is clearly defined in this text. With a strong emphasis on family-centered care, it thoroughly covers the nursing care of critically ill and injured children. A narrative outline format makes information easy to learn and apply. Care plans are integrated throughout. Thoroughly referenced, the book contains an appendix of brief case studies with review questions.

Book Information

Paperback: 749 pages

Publisher: Saunders (October 16, 1997)

Language: English

ISBN-10: 0721661149

ISBN-13: 978-0721661148

Product Dimensions: 10.2 x 7.2 x 1.2 inches

Shipping Weight: 3 pounds

Best Sellers Rank: #839,551 in Books (See Top 100 in Books) #119 in [Books > Textbooks > Medicine & Health Sciences > Nursing > Clinical > Emergency](#) #162 in [Books > Medical Books > Nursing > Emergency](#) #212 in [Books > Textbooks > Medicine & Health Sciences > Nursing > Clinical > Critical & Intensive Care](#)

Customer Reviews

I was looking more for question and answer type book, more like a study guide. But for the price, I am well satisfied with this book.

I was lucky to get this book at a used-and-reduced price; however, that doesn't change the fact that the book is outstanding in it's content. I own Hazinski's pediatric ICU "bible", but this book is SO much more detailed. If you want to learn peds cardiology...REALLY learn not only the congenital malformations but the surgery for each malformation with detailed diagrams in a step-by-step process, then this is the book for you. Each section starts with detailed embryology and expands your knowledge base from there. Most of the PICU nurses I work with have grabbed this book out of my nursing bag to use as a reference many times in the month I've owned it. They are all planning to buy it in the near future. This is a great book even if you don't plan to take the AACN certification exam for RNC. I highly recommend it!
