Great Pictures. Information seemed dated. Large heavy book. Better information available in the Fodors book which is a pound less. The pictures are beautiful and this would make a good coffee table or bookcase book, but not a good book to travel with. I couldn't find operating hours quickly for attractions. It annoyed me that I could not find the info in a logical place.

The DK guide of Rome is excellent! It has a lot of pictures and maps to give you an idea of what to expect. It also has a TON of information and it is wonderfully organized.

I like that it covers the various areas of Rome in depth. Well written descriptions with pictures. I will be in Rome for 17 days and intend to visit areas following the guidance/recommendations given.

The indexes are so inadequate that the book is only minimally useful. Why on earth is it too difficult to do them well? I am required to search and look for cross indices and find after standing on the street looking for references to what I am looking for and finally then find only the most minimal information on what I am looking at? I found the guides far more frustrating than useful. I would not buy these guides again when I travel.

As usual, the DK book is just great. Everything you ever wanted to know with beautiful pictures. I could not travel without a DK travel book in my possession.

Showed up late. But not good anyway. No useful info you couldn't get from Google

Great way to see everything you want on your terms.

as described and very helpful in planning our trip.
