The calendar style itself is really pretty. I have purchased this style for the last several years from a local store that has since gone out of business. I decided to order via . Beware the shipper uses USPS to ship to you. They do nothing but put a label on the calendar and mail it. What condition do you think it will get to you in? You guessed it. Ours was folded 5 times along the length and torn through several pages. I'll never order this sort of thing from suppliers again. Live and learn I suppose.

The calendar was defective! It was missing the February and November pages completely! I contacted Gladstone and they were totally unwilling to assist me. Fortunately, refunded my cost and gave me \$10 off buying the calendar from another seller. Thanks ! Shame on you Gladstone !

I get this every year for a vertical spot in my nautical-theme bathroom. It's always gorgeous and the paper stock doesn't curl up even after a year of steamy showers. :-)

I have been using a vertical calendar for many years in one tight space and this one works and is of good quality
