Customer Reviews

Exactly as expected. Book is in great shape and just what I was looking for.

A gift for my father. He loves it, exactly what he was looking for.

I am enjoying this immensely - it is so interesting to see how the original text is so close to the modern translations, and to see where translators have felt the need to interpret a bit.

I have this book by the same author and have read and used it until the pages were coming out of the book. My wife suggested that I check .com to see if you had the book. I was very pleased to find the book.

It is what it is ... a fantastic tool for Bible study

The book was as advertised and promptly delivered. There was not anything to dislike. I would not hesitate to order from them again.

It was good and in good condition!

It's not too impressive. The print type is small, and needs to be reset, because many of the pages are not printed evenly, some have hardly any ink on them. I sent for a replacement, thinking my copy was just defective, but the replacement had worse printing quality than the original they sent me. The paper is good quality, and I like the Lexicon and Synonyms at the back. I got it for \$17, and it is worth the price, but I would only use it for reference and not for daily study. If the print quality was better, and the font a bit larger, I would have given it a higher rating.
