Grade Level: 3 and up

Customer Reviews

This is an excellent book for any youngster. This book has 11 colorful chapters filled with vivid images, charts, breakdowns, and timelines complimenting the facts listed on each page. The chapters are: Time, Animals, Communications, Flight, Energy, the Solar System, Digital Age, Food, Transportation, Civilizations, and Sports. From the facts I read, the information is accurate, but limited. This is no history textbook, and is clearly designed for children, but not for schools.

Information could contain more information, and in some cases more accuracy (none of the information was incorrect, but sometimes listed lesser important individuals or places instead of primary contributors). Ultimately, I would recommend this product for any child who constantly asks questions. Pros: Great pictures, charts, timelines, breakdowns, accurate, very professional, high quality, hardcover Cons: Limited information, could have used some specialists when designing each fact

This book was purchased for my nieces. Age 6 and 9. They loved it.

Received when said I would receive it. My son loves the information in the book. He can't wait to read it.

I purchased this for a Christmas present for my 10 year old son. I have glanced through this book before wrapping and it is filled with many interesting facts. I think that the entire family will enjoy learning all of these facts together. Great book.

Pack with facts. My children enjoy reading their books so much. They ask me Daddy did you know and of course, I don't all these little know facts. Then again, they all enjoy learning and playing stomp the Dad.

My 11 year old son loves facts and information and this book is a great resource! He loves to just grab it and bring it in the car for a few minutes of quick info.

My son LOVES this book!

Arrived on time and as described.
