Best Sellers Rank: #55,111 in Books (See Top 100 in Books) #76 in [Books > Children's Books > Early Learning > Basic Concepts > Sense & Sensation](#) #372 in [Books > Children's Books > Animals > Dogs](#)

Customer Reviews

"Helps very young children develop language and sensory skills" - Sheffield City Council; "The brilliantly simple concept is a winner with very young children, trusted by parents and still one of the best baby series on the market" - The Bookseller; "A valuable and enjoyable learning tool." - Junior Parenting Magazine; "This range of books is perfect to share with wriggly toddlers. They're bright, bold, interactive and not too long. The latest addition features lots of foxes for little fingers to touch and sure to be another best-seller." - The Sun; "A fantastic range of indestructible chunky board books designed to appeal to inquisitive little fingers" - Mel Harris of Waterstone's

This is my son's favorite book, and we have gone through one already. He likes to sleep with it, play with it, and ultimately destroy it. It is a cute little story, with textures for my son to feel and play with. It is pretty durable, he is just really destructive. I wish it came in a rubber format because then he couldn't destroy it as much, but if I keep buying used copies, I can always have one waiting in the wings.

The material for "too bumpy" LOOKS bumpy, but it's actually very smooth! I don't think the publisher actually felt the material before publishing the book. I'd write it off, but for a very short book, one awkward page makes a big difference. The "shaggy" material is great though.

my grand daughter loves these books & has since she was 6 months old. The various material used for tough is fantastic

My daughter really liked these books, starting at the age of six months. She loves the different textures on the various pages, and the pictures keep her interested. My complaint would be that there is very little unique among the books in this series. She loved "That's not my bunny ..." and so I bought this one, and there really is very little difference between them.

Love the "That's not my"... series! I'm slowly collecting a lot of them.

I brought this book as a birthday present for a one year old, she can't seem to put the book down. She walks around with it. I love it.

This is one of my go to baby shower gifts for new moms. This series of books is the BEST for having your kiddo play with different textures. It's also very sturdy and the pages are easier to turn than a lot of other board books, which is a big plus for babies. I've had trouble finding these in most bookstores, Barnes and Noble sometimes has them and our local drugstore carries them (very random). Yes, the book is short, yes, there isn't much of a plot. Both of these things make it perfect for babies. We own this one and the dragon one. Both are ridiculously cute.

My son loves this book. The "touch and feel" materials (hairy, fluffy, bumpy shaggy, shiny, squashy) seem like a better quality than with other books we have purchased. Book pages themselves are super thick. I'm betting this will last through the inevitable abuse of multiple children. Very happy with this purchase. Shipping as expected.
