School Nursing: A Comprehensive Text

Synopsis

~ Awarded a 2012 AJN Book of the Year Award! The only text endorsed by the National Association of School Nurses (NASN) and winner of an AJN Book-of-the-Year Award is now in its 2nd Edition! Inside, you'll find comprehensive coverage of the multiple facets of school nursing—from the foundations of practice and the roles and functions of a school nurse through episodic and chronic illness and behavioral issues, to legal issues and leading and managing within school settings. Written and edited by school nurses and pediatric experts, it features real-world-tested, best practices based on evidence and experience. There's content here that you won't find in other books, such as health assessments, individualized health plan development, mental health conditions including adolescent depression, contemporary legal issues, and current policy statements essential to school nursing.

This book gives a very comprehensive picture of what it takes to be a school nurse. My wife is a new school nurse, and this book has helped her dozens of times. Yes, it can be a bit dry at times, but what textbook isn't? If you want straightforward knowledge on the profession of school nursing, look no further. No book will have more information, and the NASN organization is the gold standard in school nursing.

I recently started working as a school nurse and find this text invaluable. I have used this as a

reference for many situations that I have dealt with. I would highly recommend to anyone new to the school nursing field.

This is an excellent resource for new school nurses. It is an easy read and the information is thorough.

A good overview for new and old nurses. Recommend for any nurse breaking into this field.

An invaluable resource for every school nurse. It's so easy to get engrossed in this book, you'll almost forget what you were looking up in the first place!

Great school nurse resource.

excellent book!! I had to buy a second copy because my coworkers kept asking to borrow my book

This will be my go-to book for everything school nursing brings along and it's a good basic textbook for nurses.
